PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and deploying scalable web applications using Python Django and ReactJS, backed by strong cloud infrastructure expertise on AWS. Proficient in containerization (Docker, Kubernetes), configuration management (Ansible), serverless architecture (Lambda, API Gateway), and Linux system administration. RHCE and CISCO CCNA certified with deep networking and Bash scripting background. M.Tech graduate from RVCE Bangalore with proven track record of delivering production-grade ERP systems end-to-end from frontend development to cloud deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, Core Java, Bash/Shell Scripting

Frontend: ReactJS, Next.js, React Router, HTML5, CSS3

Backend: Django, Django REST Framework, REST APIs, Serverless Architecture, JSON

Cloud (AWS): EC2, S3, VPC, IAM, RDS, Lambda, API Gateway, CloudWatch

DevOps: Docker, Kubernetes (K8s), Ansible, CI/CD, Git, GitHub

Databases: PostgreSQL, MySQL, SQLite, ORM

Networking: TCP/IP, DNS, HTTP/HTTPS, VPC Networking, Load Balancing, Subnetting

OS/Tools: Linux (RHEL, Ubuntu, CentOS), SAP Remedy

Methodologies: Agile, Scrum, SDLC, REST Architecture

WORK EXPERIENCE

Full Stack Developer — Sanadi Technologies | Jan 2025 – Present (*1 Year 3 Months*)

- Designed and developed a modular **ERP application** using **Python Django** (backend) and **ReactJS** (frontend), handling end-to-end business operations across multiple departments
- Provisioned and managed complete **AWS infrastructure** — EC2 for hosting, S3 for document storage, RDS (PostgreSQL) for relational data, VPC and IAM for secure network and access control
- Built and exposed **RESTful APIs** using Django REST Framework, enabling seamless frontend-backend integration and third-party service connectivity
- Containerized the entire application stack using **Docker** and managed production deployments with **Kubernetes**, ensuring high availability and achieving 99.9% uptimes
- Automated environment provisioning and server configuration across dev, staging, and production using **Ansible** playbooks
- Implemented **serverless microservices** using AWS Lambda and API Gateway, reducing infrastructure overhead for lightweight services
- Wrote and maintained **Bash scripts** for deployment automation, log monitoring, and routine operational tasks on Linux servers

Graduate Trainee Engineer — VOIS (Vodafone Intelligent Solutions) | Aug 2023 – Mar 2024 (*8 Months*)

- Worked on enterprise SAP-based tools including **Informatica** and **Remedy** for data management and IT service workflows in a large-scale telecom environment

- Managed and maintained **Linux systems**, performed health checks, and wrote **Bash scripts** to automate operational and monitoring tasks
- Gained hands-on exposure to large-scale enterprise IT infrastructure, networking, and telecom operations

Developer Intern — Hiringhood | (3 Months) | hiringhood.com

- Developed and enhanced frontend features using **ReactJS** and **React Router**
- Integrated **AWS Lambda** and serverless architecture for scalable cloud-based API handling

CERTIFICATIONS

- **RedHat Certified Engineer (RHCE – EX294)** | Certificate ID: 210215653 | [Verify](#)
- **CISCO CCNA** | Issued: June 2025

PROJECTS

1. Modular ERP System | Sanadi Technologies | Live Deployed

Built a full-stack ERP with 5+ modules using Django + ReactJS, deployed on AWS (EC2,S3, RDS/PostgreSQL). Containerized with Docker, orchestrated with Kubernetes achieving 99.9% uptime.

Tech: Python, Django, ReactJS, AWS, Docker, Kubernetes, PostgreSQL

2. XAI Model for Android Malware Detection | M.Tech Research Project

Developed an Explainable AI system using SHAP and LIME with improved ML models for transparent Android malware detection.

Tech: Python, Machine Learning, SHAP, LIME

3. Configuration Management with Ansible

Automated Yum configuration and AWS EC2 provisioning using Ansible playbooks, reducing manual setup time significantly.

Tech: Ansible, AWS EC2, Linux, Bash

EDUCATION

M.Tech, Computer Networks Engineering — CGPA: 8.60 | RVCE, Bangalore | 2023–2025

B.Tech, Computer Science Engineering — CGPA: 8.06 | JNNCE, Shimoga | 2019–2023

ACHIEVEMENTS

- Led VTU University Team — All India Inter-University Badminton Championship 2021–22
- Bronze Medalist — JITO National Games 2017, Badminton
